

I'm sure you're aware of the "Sinclair Controversy". This is an outrage; to allow Sinclair to force its local stations to air a political ad, albeit in the form of a "documentary", just days before our national election is not only undemocratic but a clear example of the dangers inherent in the consolidation of major media we've endured these past few years.

Sinclair is obligated to serve the public interest. This action serves no one except their own bottom line. It's a political contribution, pure and simple. Please take action against this thinly veiled attack piece and prevent Sinclair from airing it at this critical time.
